Date: 26 NOV 2013

Re: SPLOST Equipment Purchase

Please find attached equipment list with lowest bid price received for equipment needed to ready the Sutphen Pumper for service. We are at the point in the project we need to order the equipment to have it ready to mount / place on the Pumper once it gets to the vendors Alabama location.

The total cost of equipment is \$ 58423.62. This brings the total cost of the SPLOST project to \$386341.62, which is \$13658.38 less than the \$400000.00 SPLOST project budget.

I request Council approval to purchase the equipment at this time.

Monroe Fire Department Bid Equipment
